## *Pamela S. Stutzman*

### *Mission Statement*

“The vision that I hold is to support the expansion of human consciousness and to cultivate vastly more love and compassion for all of life...and in so doing, invoke the true spirit of *Heaven on Earth.*”

### *Purpose and Vision*

“The purpose for which this company was created is essentially a call to oneness...an authentic communion with the Divine. The triune paths of my company offer an invocation for healing ... both personal and global. A fundamental truth of our humanity is that we are designed to be expressions of Illumination and Divine Grace...affording the world a greater measure of beauty and sanctity. It is intrinsic to our spiritual nature and our Divine purpose as a human family to come to a remembrance of who we truly are...Children of a loving Creator – ever precious and significant to a greater plan.

While my spiritual foundations are rooted in Christianity, decades of spiritual study and investigation have afforded me a wider panoramic perspective to better recognize the universal truths which are threaded throughout history and the sacred teachings from ancient cultures world wide. We are now called to a rebalancing of the Divine Feminine and Divine Masculine expressed through a renewed honoring of all that is presented within nature as being ever Sacred and Holy. Since the beginning of time, and in all venues, love triumphs as the great healer.

This journey of learning has led me to an ever deeper reverence for the power and grace woven through the messages of Christ, the Holiness He embodied, and the purity of love He offered the world! May all of my endeavors fully honor the highest truth and purpose of His teachings.”

### *Infinite Love & Light*
