### ***About the Practitioner***

Ms. Stutzman is a Certified Reiki Master, Feng Shui Consultant, Prophetic Intuitive, and writer and has practiced therapeutic bodywork and hands on healing since 1981. Working part time as a professional Tour Director since 1993, Pamela has since created her own tour company coordinating and facilitating Healing Spiritual Journeys to Sacred Sites world wide.

Pamela, a sculpture artist and hospice volunteer, was formally educated in Michigan majoring in Business and Interior Design. Her innate healing ability and therapeutic approach to design was the perfect segue into an intensive 10 year study of Feng Shui and Reiki Healing. Pamela instantly recognized the strong parallels between Reiki energy and the power of Feng Shui principles to promote wellness in body mind and spirit.

According to Pamela, “In implementing the ancient art of Feng Shui, one creates a physical and symbolic healing foundation expressed succinctly in the home and work environment. Integrating Feng Shui dynamics in one’s life can vastly accelerate shifts in awareness—thereby engaging deeper expressions of healing at the subconscious level. This rich process is a most ‘sacred passage’ and gracefully supports the power and effectiveness of Reiki energy in creating whole health.”

## What is Reiki?

Reiki is a Japanese word meaning 'Divine life energy'. Reiki Holistic Healing helps treat the authentic cause of physical ailments and/or disease rather than just the symptoms. Reiki Healing, combined with Feng Shui principals, help address the original pattern of thought or belief that is contributing to any physical malady or emotional/spiritual imbalance. Reiki is currently being offered in progressive hospitals worldwide.

## Benefits of Reiki Healing

- Reiki amplifies and augments the immune system by fortifying our total life force energy.
- Reiki helps the body and mind purify from toxins, pollutants, and discordant emotions.
- Reiki Healing Treatments can help provide amazing relief from pain and stress.
- Reiki realigns and empowers the body's seven major energy centers along the spine.
- Reiki treatments help dissolve old issues of self-sabotage that prevent us from experiencing true inner peace, wellness, and successful living.
- Reiki helps purify and dissolve any destructive subconscious patterning currently affecting one's overall health.
- Reiki helps balance the right and left hemispheres of the brain equalizing the logical and creative aspects of self.
- Reiki can relieve anxiety and depression.

*"The human body possesses its own God given healing mechanism; i.e. when incurring a cut or a scrape, the fresh wound scars over and heals itself. This intrinsic regenerative ability is vastly accelerated when we access a state of integrated emotional, spiritual, and physical relaxation. It is this exalted state of higher awareness that affects quantum shifts in consciousness and the resultant physical regeneration in our body and mind. Simply said, Reiki is experienced as powerful restorative prayer."*

## What can I expect from a Treatment?

Reiki treatments are experienced as a deeply regenerative and nurturing healing. Clients often report relief from illness, stress, aches, physical maladies, and even remission of disease. Patients describe a sensation of harmony in their whole being after a prescribed series of treatments.

Treatments are offered in a beautiful and tranquil environment completely designed with all Feng Shui elements for optimal balance and integration.

- Reiki allows a very deep level of relaxation and encourages a much richer and restorative degree of sleep. It is during this deep state of rest that the body's cellular tissue regenerates and the mind can heal its memories.
- The Reiki Master gently and prayerfully channels the life force energy by placing her hands lightly on the body.
- Reiki Healing is done while you are fully clothed and blanketed on a luxuriously cushioned massage table. Healing music and aroma therapy are also available.
- Positive after effects include: increased restfulness and rejuvenation, stress relief, greater energy flow, a balanced emotional state, spiritual integration, and serenity.
- Reiki Healing Treatments encourage increased openness to divine wisdom and intuitive guidance.
